

## CURRICULUM VITAE

### Résumé:

During my education to be a M. SC. Eng with specialisation in Industrial Management I have among other things obtained knowledge within solving production management problems, including analysis of products and processes as well as other criteria for establishing and operating a complex production management system. The education includes a great deal of team work in co-operation with Danish industries. Furthermore, I have started studying at Aarhus School of Business to get a Bachelor of Commerce degree (Marketing) in order to strengthen my economic qualifications.

### Education:

- 2003- Started taking evening classes at Aarhus School of Business to get a Bachelor of Commerce degree (Marketing)
- 1999- Started studying at Aalborg University to be an engineer. Expect to graduate in the summer of 2004
- 1998 Military service at the airbase in Karup
- 1997 Admittance course for the engineer education and took at the same time evening classes in business economics
- 1993- 1996 Technical A-Level College

### Projects at Aalborg University

From the sixth term the projects took place in co-operation with Danish companies.

- 10. term** Development of production concept at Grundfos Manufacturing Hungary
  - The project took its starting point in the situation that Grundfos Ltd. wanted to move a production line from Finland to Hungary. The project constrained development of production concept for the production of a pump in Grundfos' Manufacturing location in Hungary. The production concept consisted of five part concepts: Production structure, production planning, supply, quality system and organization system. The five part concepts drew a picture of how the future pump production in Hungary should take place.
- 9. term** Analysis of material and information flow at Milliken Denmark A/S
  - The project took its starting point in the situation that Milliken Denmark wanted an analysis of its material and information flow with reference to elimination of non value adding activities. The result of the project was a future state mapping of how Milliken Denmark A/S could handle material and information flow. The analysis was concentrated on the Lean philosophy, where the goal is to use fewer resources in general.
- 8. term** Development of management system at Mekoprint Electronics
- 7. term** Development of production concept for A/S Peder Nielsen Beslagfabrik
- 6. term** Improvement of production management system for Mekanord A/S
- 5. term** Setting up a fictive productive activity

- 4. term Process realisation of furnishings for kickstand
- 3. term Construction of wood splitter
- 2. term Web-based sale of wooden rafters (basic programme)
- 1. term Storage of wind energy (basic programme)

### **Occupational Experience:**

- 2002 Study related summer project for Milliken Denmark A/S
- Automation and development of a manual process (Milliken Obex Forma)
  - Change in production layout
  - Invite offers on new production machinery
  - Elaboration of job description
- 1999 - Spare time job at Aalborg Stadionrestaurant
- 1997-1999 Spare time job at the postal service in Herning
- 1996-1997 Trainee period as an electrician in Germany

### **IT-expertise**

Daily user of Microsoft Office XP: Word, Excel, Access, and Outlook. Self-taught in Visio Professional 2002 and Navision Concorde XAL. Worked with Mapics, Navision Concorde XAL, AutoCad 2000, ProModel 4.23 and Simul8.

### **Personal Qualifications:**

- Through my spare time job at the local football stadium, servicing the sponsors, I have learnt to stay calm even in very stressful situations.
- During my studies and the summer student job at Milliken Denmark A/S I have learned to work resolute and responsible.
- Through my studies at Aalborg University I have acquired analytical capacities, which make me capable of solving complex assignments.
- I am good at co-operating with others and have a certain understanding of making the most of the resources in a team.
- Furthermore, I am a very committed person and full of initiative

### **Other Information:**

Born 14. March 1976 in Skive

In my spare time I play squash and try to find time to spend with family and friends.
